

REMARKS

The Examiner's assertion in the Advisory Action of March 17, 2008 that "The terminology "wherein the individual does not have an atherosclerotic [sic] condition" (claim 29) is not disclosed or suggested by the specification as originally filed." is not correct as the claimed aspect of the disclosed invention is supported, at least, by the specification at lines 16-19 of page 3.

The title has been amended above to be consistent with the title shown in the application filed April 6, 2006.

An early and favorable Action is requested.

Respectfully submitted,

NIXON & VANDERHYE P.C.
